Our Promise to YOU:

You must be absolutely thrilled with the portraits we create for you. Love them or we give you every penny back— no questions asked and no hard feelings either.

"Words cannot describe how happy I am with you, Richard. You never rush anyone; you make each customer feel comfortable. You always allow time, even for a mom to nurse a baby. I now know why you allow an hour per child when you photograph. That's why your photographs are so spectacular. You are compassionate with the babies and their needs. I wish I had heard about you when my baby was 3 months old before I went to a chain studio. What a joke that was! You have captured the beauty of my lovely little Mariella. I am proud to be one of your Baby Panel Moms."

"I was so happy that you sent me the *Baby Panel* offer. Richard has captured the true personality of my child - never feeling rushed or pressured in any way. One time, my son had scratches on his forehead just before the photo session. Richard didn't seem concerned and assured me that he would take care of it. When I received the photographs...there was not one sign of the scratches!

Being an artist myself, I truly appreciate the artistic skill he uses with his camera. I am familiar with the quality of "chain studios" and the difference between You-Shine's work and theirs is like night and day.

He truly does stand behind his work."
